INDUSTRIAL VISIT REPORT

Aim of Industrial Visit:

Industrial visit is considered as one of the tactical methods of teaching. The main reason behind this- it lets student to know things practically through interaction, working methods and employment practices. Moreover, it gives exposure from academic point of view. Main aim industrial visit is to provide an exposure to students about practical working environment. They also provide students a good opportunity to gain full awareness about industrial practices. Through industrial visit students get awareness about new technologies. Technology development is a main factor, about which a students should have a good knowledge. Visiting different companies actually help students to build a good relationship with those companies. We know building relationship with companies always will always help to gain a good job in future. After visiting an industry students can gain a combined knowledge about both theory and practical. Students will be more concerned about earning a job after having an industrial visit.

- 3.To experience the working environment in industry and visualize the all the important Departments like QC, R&D in the Industry.
- 4.Interaction of students with the peoples of all important departments.
- 5.To prepare the students for Gondwana Herbs selection.

Strength behind the visit:

Dr.P.S. Raghu (Principal) Sir has approved the industrial visit as convenor encouraged the committee for organizing similar kind of activities for the benefit of students. As per Industry University Interface Program and suggestion by industry experts, industrial visit for student of Third and Final year student should be organized in order to have introductory glance for students in current pharma industry. Asst Prof. Mr.A.D. Wanjari department of Pharmacology B.K.C. P Sakoli has taken continuous follow-up with Gondwana Herbs to organize this Industrial visit, Dr.P.S. Raghu has encouraged all the students to participate in the Industrial Visit.

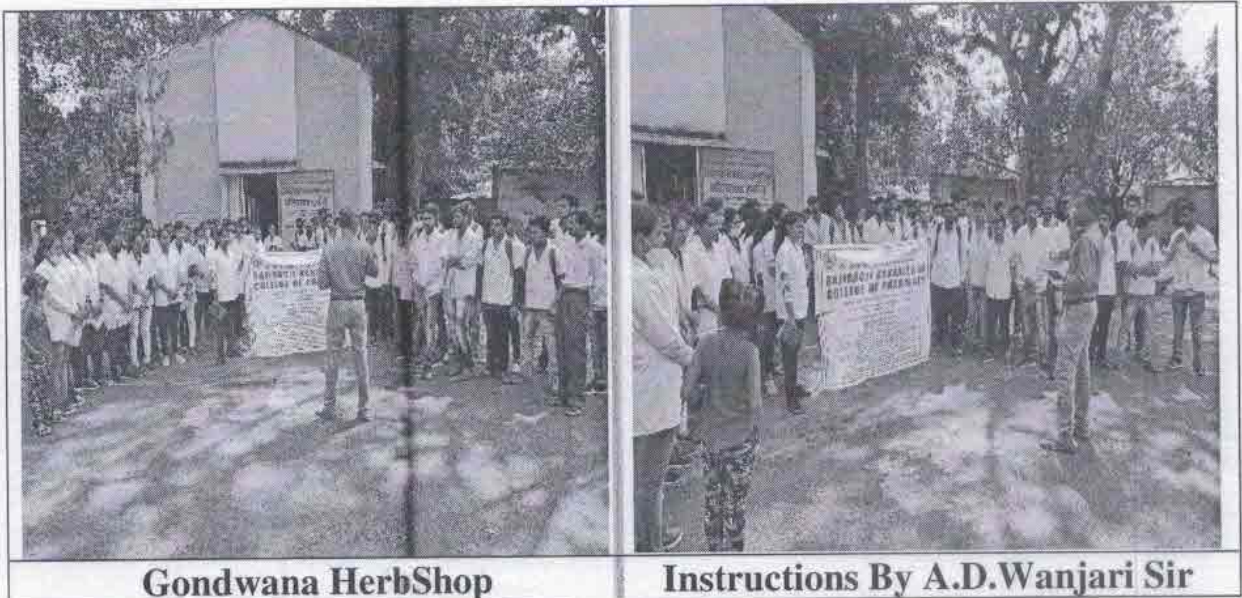

Ground Report:

According the route and time plan bus departed and reached the Gondwana Herbs, Dist.Gadchiroli at 11:00 am, The Security officer welcomed us and guided for our entry in various formulation plant and seminar rooms. Four batches of the students were divided and one batch was headed for formulation plant and second batch was entered in seminar room where the tea and biscuits were served for the students during the lecture. The presentation by Mr. Netaji Anpatrawar was very informative with the introduction of company profile and principles. The important processes of the manufacturing of the APIs and Intermediates were explained. Many students have asked the queries and the instructor has solved them very cleverly and politely.
