34) Details of Practices for Environment consciousness:

Green Practices

Green landscaping with trees and plants

The Institute's campus is a verdant green space with lawns and lovely trees distributed across it. College also has separate herbal garden in the campus which is helpful for learning. Tree plantation is done every year in the college premises and nearby villages under NSS activity to promote green practices and saving of trees. Tree guards are provided to the protect the small plants.

Tree Plantation:

Our institution is committed whole-heartedly to the cause of the environment. We regularly take up tree planting initiatives on our campus as well as outside. The College organizes regular tree plantations to raise awareness about nature and natural resources. In collaboration with NSS unit of our college, the college organizes regular plantation drives. Teaching and non-teaching staff members, along with students, actively participate in these tree planting drives.

34) Details of Practices for Environment consciousness:

Green Practices

Green landscaping with trees and plants

The Institute's campus is a verdant green space with lawns and lovely trees distributed across it. College also has separate herbal garden in the campus which is helpful for learning. Tree plantation is done every year in the college premises and nearby villages under NSS activity to promote green practices and saving of trees. Tree guards are provided to protect the small plants.

Plastic free campus

Students are encouraged by their college to utilize paper bags rather than plastic ones. In the college's grounds, there are labels that read "USE OF PLASTIC IS RESTRICTED.". Hazards of use of plastic are explained to the students time to time for creating a plastic free zone. Through the subject Environmental Sciences, students are taught about hazards of plastics and awareness about plastic prohibition is made. In place of throwaway plastic cups and glasses, the college uses tea cups and water glasses made of glass and stainless steel.

Tree Plantation:

Our institution is committed whole-heartedly to the cause of the environment. We regularly take up tree planting initiatives on our campus as well as outside. The College organizes regular tree plantations to raise awareness about nature and natural resources. In collaboration with NSS unit of our college, the college organizes regular plantation drives. Teaching and non-teaching staff members, along with students, actively participate in these tree planting drives.

35) Details of Practices for Environment consciousness:

Green Practices

Green landscaping with trees and plants

The Institute's campus is a verdant green space with lawns and lovely trees distributed across it. College also has separate herbal garden in the campus which is helpful for learning. Tree plantation is done every year in the college premises and nearby villages under NSS activity to promote green practices and saving of trees. Tree guards are provided to protect the small plants.

Plastic free campus

Students are encouraged by their college to utilize paper bags rather than plastic ones. In the college's grounds, there are labels that read "USE OF PLASTIC IS RESTRICTED.". Hazards of use of plastic are explained to the students time to time for creating a plastic free zone. Through the subject Environmental Sciences, students are taught about hazards of plastics and awareness about plastic prohibition is made. In place of throwaway plastic cups and glasses, the college uses tea cups and water glasses made of glass and stainless steel.

Tree Plantation:

Our institution is committed whole-heartedly to the cause of the environment. We regularly take up tree planting initiatives on our campus as well as outside. The College organizes regular tree plantations to raise awareness about nature and natural resources. In collaboration with NSS unit of our college, the college organizes regular plantation drives. Teaching and non-teaching staff members, along with students, actively participate in these tree planting drives.

Paperless Office:

Office is advised for the minimum use of papers and also motivated for reuse of rough papers in office and Xerox centers in college.

Following initiatives are taken to maintain ecofriendly environment.

1. The glass windows of the classrooms facilitate the maximal utilization of natural light and good ventilation.
2. The fans, lights and other appliances are switched off when not required. Several conventional lights have been replaced by LED lights in campus so as to curtail on electricity consumption.

30) Whether Perspective Future plan document prepared?

YES

All Sanctioned Letters, appointment Letters, audit statements, Service books, cash book, Ledger book, dead stock Registers and other elegant required documents are updated & Completed in all respect from time to time and kept in office for verification.

Declaration by Principal of the College:

I am aware that the above information provided, is true & will be validated during the AAA AUDIT.

15) Details of Practices for Environment consciousness:

Green Practices

Green landscaping with trees and plants

The Institute's campus is a verdant green space with lawns and lovely trees distributed across it. College also has separate herbal garden in the campus which is helpful for learning. Tree plantation is done every year in the college premises and nearby villages under NSS activity to promote green practices and saving of trees. Tree guards are provided to the protect the small plants.

Plastic free campus

Students are encouraged by their college to utilize paper bags rather than plastic ones. In the college's grounds, there are labels that read "USE OF PLASTIC IS RESTRICTED.". Hazards of use of plastic are explained to the students time to time for creating a plastic free zone. Through the subject Environmental Sciences, students are taught about hazards of plastics and awareness about plastic prohibition is made. In place of throwaway plastic cups and glasses, the college uses tea cups and water glasses made of glass and stainless steel.

Use of Bicycle/Battery powered vehicles:

- Restricted entry of automobiles and its use inside the campus.
- Promoted the use of bicycles or battery powered vehicles in the campus

Tree Plantation:

Our institution is committed whole-heartedly to the cause of the environment. We regularly take up tree planting initiatives on our campus as well as outside. The College organizes regular tree plantations to raise awareness about nature and natural resources. In collaboration with NSS unit of our college, the college organizes regular plantation drives. Teaching and non-teaching staff members, along with students, actively participate in these tree planting drives.

Paperless Office:

Office is advised for the minimum use of papers and also motivated for reuse of rough papers in office and Xerox centers in college.

Following initiatives are taken to maintain ecofriendly environment.

1. The glass windows of the classrooms facilitate the maximal utilization of natural light and good ventilation.
2. The fans, lights and other appliances are switched off when not required. Several conventional lights have been replaced by LED lights in campus so as to curtail on electricity consumption.

36) Whether Perspective Future plan document prepared?

YES

All Sanctioned Letters, appointment Letters, audit statements, Service books, cash book, Ledger book, dead stock Registers and other elegant required documents are updated & Completed in all respect from time to time and kept in office for verification.

Declaration by Principal of the College:

I am aware that the above information provided, is true & will be validated during the AAA AUDIT.

35) Details of Practices for Environment consciousness:

Green Practices

Green landscaping with trees and plants

The Institute's campus is a verdant green space with lawns and lovely trees distributed across it. College also has separate herbal garden in the campus which is helpful for learning Tree plantation is done every year in the college premises and nearby villages under NSS activity to promote green practices and saving of trees. Tree guards are provided to the protect the small plants.

Plastic free campus

Students are encouraged by their college to utilize paper bags rather than plastic ones. In the college's grounds, there are labels that read "USE OF PLASTIC IS RESTRICTED.". Hazards of use of plastic are explained to the students time to time for creating a plastic free zone. Through the subject Environmental Sciences, students are taught about hazards of plastics and awareness about plastic prohibition is made. In place of throwaway plastic cups and glasses, the college uses tea cups and water glasses made of glass and stainless steel.

Use of Bicycle/Battery powered vehicles:

- Restricted entry of automobiles and its use inside the campus.

- Promoted the use of bicycles or battery powered vehicles in the campus.

Tree Plantation:

Our institution is committed whole-heartedly to the cause of the environment. We regularly take up tree planting initiatives on our campus as well as outside. The College organizes regular tree plantations to raise awareness about nature and natural resources. In collaboration with NSS unit of our college, the college organizes regular plantation drives. Teaching and non-teaching staff members, along with students, actively participate in these tree planting drives.

Paperless Office:

Office is advised for the minimum use of papers and also motivated for reuse of rough papers in office and Xerox centers in college.

Following initiatives are taken to maintain ecofriendly environment.

1. The glass windows of the classrooms facilitate the maximal utilization of natural light and good ventilation.
2. The fans, lights and other appliances are switched off when not required. Several conventional lights have been replaced by LED lights in campus so as to curtail on electricity consumption.
