Green College Policy

A Green Campus is a place where environmental friendly practices and education combine to promote sustainable and eco-friendly practices in the campus. The green campus concept offers an institution the opportunity to take the lead in redefining its environmental culture and developing new paradigms by creating sustainable solutions to environmental, social and economic needs of the mankind.

College environmental aims and objectives

- The college is striving to develop its institution on a self – sustainable basis in the areas of power, water and cleanliness.
- The faculty, staff and students have to contribute collectively to develop an eco – friendly sustainable campus and disseminate the concept of eco – friendly culture to the nearby community and wherever possible.
- Awareness creations about environmental issues among students and employees including climate change.
- Measure and reduce environmental emissions / footprints

Waste Management

- To increase the green cover in and around the campus.
- To adopt methods for waste segregation
- To manage, collect and dispose e-waste appropriately
- To reduce hazardous waste and its management
- Actions taken to reduce consumption of plastic in the campus.
- To encourage paperless work culture and recycling / reuse of paper.
- Display waste management instructions /alerts at prominent /relevant locations in the campus.

Water Management

Adopting following measures in campus to reduce water consumption

- Grey water in flushes
- Rain water harvesting
- Prevention of water leakage
- Display water management instructions/alerts at prominent/relevant locations in the campus.

Climate Change

- Suitable action taken to reduce gas emissions due to energy consumption
 - Use of energy efficient lamps where ever possible like corridors,toilets etc.
 - Use of energy efficient equipments in laboratories/ classrooms this can range from air – conditioners, refrigerators, condensers etc.
- Promoting the use of bicycles.
- Promoting the use of public transport.
- Creating awareness by organizing Programs related to climate change, environmental protection, and environmental issues.
- Promoting some projects/experiments in the education system as part of regular curriculum which is related to environmental aspects.
- To encourage the concept of green brigade so as to maximize the students involvement.

We intend to pursue a programme of continuous improvement in our procedures, practices and review the policy on a regular basis to evaluate continued relevance and to monitor compliance.
