**7.1.2 Circulars and report of activities for the implementation of the initiatives document**

**1. Report of Institutional Training Programme on Energy Conservation by Petroleum Conservation Research Association (ministry of petroleum and Natural Gases Govt. of India) on dated 06/09/2017**

One of the most successful ventures of the Wainganga Bahu-Uddeshiya Vikas Sanstha's, Bajiraoji Karanjekar College of Pharmacy, Sakoli has established itself as a premier educational institute offering Degree and Diploma level courses in pharmacy in the east Vidharbh region in year of 2003.

Our college take many measures to save / conserve the energy.

**Use of natural source of light**

- Our classroom are lined with windows, utilize natural sunlight.
- Turn off overhead lights and let the sun shine in, especially during lecture. Natural sunlight will create a more relaxed learning environment compared to the harsh overhead lights in most classrooms.
- Keeping the lights off will keep the room cooler.

**Switch to LED light bulbs**

- Already switched from the old energy-sucking incandescent light bulbs to save money
- Keep classroom computers and other devices plugged into power strips to help mitigate standby power usage.

**Change Televisions to LCD Screens or Smart Projectors**

- Uses old television computer screen and monitor has been change to LCD's to reduce the power consumption.
- As technology moves quickly, projectors are also installed in classrooms.  
Invest in Better Cooling Options
- Electronics (computers, printers, copiers) emit a lot of heat, which needs to be counteracted by A/C. air conditioner (A/C) to keep the college comfortable is costly. Upgrading to a more efficient cooling option can help college reduce costs. Teachers and administrators can also employ other A/C-saving efforts to conserve power and costs,
- Using fans in the classroom and windows are well-sealed to keep out hot air.
- We are having windows that vent or open helps circulate air on days when the temperature drops a few degrees.

**Encourage Students to Recycle**

**Report of Tree Plantation: Tree plantation programme organized by college on 03/07/2017**

On 3rd August 2017, Bajiraoji Karanjekar College of pharmacy sakoli, successfully completed the event of Tree Plantation under the National Service Scheme at College Campus, Trees are the foremost source for producing the oxygen in environment, they helps to reduce the level of CO2. As we all know that the whole world is facing the problem of global warming and to recover from such problem planting the trees is become one of the most important aspects today. It was attended by NSS Programme Coordinator, Faculty Members and more than 21 student volunteers. Under the Guidance of Asst. Prof. Mr. Tulsidas Nimbekar, NSS Program Coordinator, Dr. Damodhar Gaupale Principal, NSS volunteers planted more than 50 trees .The 50 students also placed bricks as barricades and each student took the responsibility to nourish and maintain the allocated plant. Eventually, the ground attained a glorious look. The committee decided to proceed with the same inspiration, enthusiasm and zeal to enhance the beauty of the college.

**Report of Tree Plantation: Tree plantation programme organized by college on 04/07/2019**

A tree plantation drive was held in the college premises on 4th July, 2019. The dual objectives of this drive were to enhance the tree cover on the campus and to sensitize the students towards importance of trees.

In this program, students of first year classes of all courses were made to plant a tree each at the designated place. Each tree was marked by a plate mentioning the name of the tree, and the course and the batch that planted it. The classes take the responsibility of nurturing their tree. Time slots to different classes were given between 11am to 1pm. Students came to the site with their teachers as per the schedule and planted the trees. They were given information about the name and type of tree, colour of its flowers, its blooming season and about what are they expected to do to take care of it. Over all 40 students participated in tree plantation program.

On this occasion one tree each was also planted by our guests Dr. Loknand Navkhare and one by our respected principal Dr. D.C. Gaupale. In all 20 trees, were planted on the occasion, all of which are flowering trees. The trees that were planted were Gulmohar (Delonik Regia), Jacaranda (Jacaranda Mimosifolia), Kanak Champa (Pterospermum Acerifolium), Kurejia or Mexican Silk Cotton (Ceiba Petandra) and Tota (Erythrina Variegata).

**BAJIRAOJI KARANJEKAR COLLEGE OF PHARMACY, SAKOLI**

Plantation of trees and plants aids in making the environment better. It purifies the air, conserves water, helps in climate control, preserves soil and benefits the overall environment in several other ways. Trees create an ecosystem to provide habitat and food for birds and other animals. Tree absorbs carbon dioxide and potentially harmful gases, Such as sulfur dioxide, carbon monoxide from the air and release oxygen.

On this occasion in association with social forestation department Sakoli and B. K. C. P NSS incharge had organized **TREE PLANTATION** on 05/04/2021 on Thursday. During the program all faculty member planted different plants on medicinal garden B. K. C. P SAKOLI. Mr. T. P. Nimbekar, Program officer and Principal Dr. P. S. Raghu had taken efforts for the successful organization of the program. Due to the COVID-19 protocol the attendance of student was not compulsory.

**Report on Guest lecture of occupational Health Safety and Environmental Induction on the occasion of Environment Day on Dated 05/06/2019**

On Sunday on 5th June 2022, Bajiraoji Karanjekar College of Pharmacy, Sakoli organized a program to celebrate World Environment Day. The Chief Guest of the program Mr. Ghanshyam Nikhade, Principal, Wainganga Institute of Technology, sakoli and principal along with all the faculty members and students participated in the program with full energy.

On this program chief Guest Mr. Ghanshyam Nikhade delivered the lecture on occupational Health Safety and Environmental Induction The aim behind organizing this program was to give awareness to people about keeping the environment clean and safe from pollution. For this purpose, plant more trees to purify the air and make the earth green. The program started at 11 am.

He also added that we should also motivate others to keep their environment clean free of pollution so that we can live a healthy life. It was the pleasurable activity we enjoyed most and promised with our principal to plant more trees in our surroundings. 72 students were participated for the program.

We were thanks to Principal Dr. D. C. Goupale and Mr. Atish Sahare and Management Committee for giving permission and facilities for successful completion of this Programme. Vote of thanks delivered by Mr. A. D. Wanjari.
