**Report on Tree Plantation organized on dated 04/07/2019**

Plantation of trees and plants aids in making the environment better. It purifies the air, conserves water, helps in climate control, preserves soil and benefits the overall environment in several other ways. Trees create an ecosystem to provide habitat and food for birds and other animals. Trees absorb carbon dioxide and potentially harmful gasses, such as sulfur dioxide, carbon monoxide, from the air and release oxygen one large tree can supply a day's supply of oxygen for four people.

On this occasion in association with Social Forestation Department Sakoli and B. K. C. P. NSS volunteers had organized "TREE PLANTATION" on Thursday, 4 Jul 2019. During this program our volunteers has planted 150 different plants on the road side from Nagzira bypass to Jamanapur village. Mr. T. P. Nimbekar, Program officers and Principal, Dr. D, C. Goupale with our 40 NSS volunteers had taken efforts for the successful organization of the program.

**REPORT ON WATER AND GRAIN FOR BIRDS IN SUMMER**

Environment, trees-plants and animals-birds have great importance for the balance of nature. It is duty of all the people to keep pots or bowls filled with grains and water for these birds on your roofs, balconies, or any nearby location so that these birds can feed themselves. Climate change is affecting migration patterns of birds as has been noticed in the last few decades. The scarcity of water is affecting all organisms alike. Immense dehydration, very low energies and long flights in the heat break are detrimental to the health of birds.

Indian government announce strict lockdown from the last week of April 2020 hence it was difficult to organize any activity related to environment. In this situation, with the consideration of summer season, college decided to organize "Water and Grain for Birds in Summer" program. College requested to all students and staff members to keep the pots or bowls filled with grains and water for birds on their roofs. Lot of students participated in this event and some of them send the images of activity toward Mr. A. Y. Sahare, Program Co-ordinator.
