Percentage of students undertaking project work/field work/ internships

Number of courses that include project work/field work/internship is based on the syllabus prescribed by the Pharmacy Council of India and RTM Nagpur University, Nagpur. The curriculum has stated the project work and the internship for the students as per the syllabus prescribed. Thus the students in their four year degree course carry out field work, third year students are allowed to go for internship/ industrial training and final year students carry project work as prescribed by PCI and University. A request letter and list of students is forwarded to the Pharmaceutical company /industry for the internship/ training. College sign MoU with different industries for the internship of students. After completion of internship students are informed to submit the report and certificates of the same to the college.
